

YOUR SUNLYNC DATA IS AT RISK!

Secure Hosting by Hexaport

93%

**OF BUSINESSES CLOSE WITHIN 1 YEAR
AFTER MAJOR DATA LOSS**

Don't let local computer failures destroy years of client data,
appointments, and revenue history!

PROFESSIONAL SUNLYNC HOSTING IN NORTH AMERICA

HEXAPORT

WHAT HAPPENS WHEN YOUR DATA IS LOST?

HARDWARE FAILURE

Local computer crashes can instantly wipe out years of client records, appointment history, and package sales data

DISASTERS STRIKE

Fire, flood, theft, or power surges can destroy your SunLync system and all business data permanently

BUSINESS SHUTDOWN

Can't access client info, process appointments, or run your salon when your local system fails

REVENUE LOSS

Unable to track client packages, membership renewals, or payment history - losing thousands in revenue

HEXAPORT'S SECURE SUNLYNC HOSTING

NORTH AMERICAN DATA CENTER

Your SunLync data hosted in our secure, climate-controlled facility with 24/7 physical security

DAILY AUTO BACKUPS

Multiple daily backups with 30-day retention - never lose client data or appointment history again

ALWAYS AVAILABLE

99.9% uptime guarantee - access SunLync from any device, anywhere, anytime

BANK-GRADE SECURITY

Military-level encryption, firewalls, and intrusion detection protect your sensitive client information

LIGHTNING FAST

Enterprise servers run SunLync faster than any local computer - no more waiting or slow responses

COMPLETE PEACE OF MIND

Hexaport manages everything - monitoring, updates, security - you focus on running your salon
